THE PERSONAL FINANCE ASSISTANT

Now you can keep track of expenditures and income for all your personal business or home transactions.

Manual includes sample accounts and step-by-step instructions

26 user defined accounts

26 user defined categories

Enter transactions on nine fields including date, tax status, transaction number, written to whom, for what, and amount.

Transactions may be edited, canceled or printed.

Account and category balances may be displayed on the screen or printed

The Personal Finance Assistant includes a flexible report generator.

Report criteria can be specific, e.g. "taxable"; or indicate a range — transactions 100-175

The program allows you to produce reports on one or more of the entry fields. For example: total expenses charged to American Express for motel rooms in June and July.

Comprehensive search and Edit program allows you to balance/reconcile monthly statements

The program is easy to get started with, practical and flexible. As you become familiar with **the Personal Finance Assistant** you will be able to produce accurate statements for expense accounts and tax returns. It will also enable you to maintain and review a history of accounts and transactions.

the Assistant Series

The Most Practical Software For The Most Practical Micro

THE WRITERS' ASSISTANT

WORD PROCESSING for the **COMMODORE 64.**

Easy-to-learn, full featured program that allows you to create, edit and print documents.

Includes demo program and "Help" keys.

Cursor control and insert/delete key remain active.

Append, attach, and merge files for large documents and personalization.

Insert, Copy, Delete, and Move text.

Locate and Replace a word, part of a word, or a phrase.

User has full control of line spacing, tab settings (to 9 positions), left and right margins, headings and footings.

Produces fully justified text or standard left justified.

THE WRITER'S ASSISTANT will number pages and count words.

Issue print commands to allow underlining, superscripts and subscripts. You have complete control of any printer.

Normal screen display is 40 column wrap around —but the program is compatible with the Data 20 eighty column card.

TECHNICAL NOTE

This program supports the serial or the user port —you can configure just about any printer. It can be used with more than one 1541 disk drive or with the "C-64 Link-IEEE Interface" which allows you to work with the Commodore 2031, 4040, and 8050 disk drives.

This program is part of a series. It will integrate with **THE FILING ASSISTANT** (Data Base Manager) and **THE SPREADSHEET ASSISTANT** (Forecasting and Financial Analysis).

Even if you are a beginner, **THE WRITER'S ASSISTANT** will allow you to produce sophisticated word processing. **THE ASSISTANT SERIES** provides you with the most complete and practical information management package available for the Commodore 64.

Rainbow Computer hotline guarantees a solution to any user problem.

THE FILING ASSISTANT

DATA BASE MANAGEMENT for the **COMMODORE 64**

This data management package allows you to create record formats, sort information, and produce reports. It includes the following features:

Design records up to 256 characters, up to 25 fields, (up to 35 characters per field)

Designate up to 10 two-level sorts

"Step through" records while displaying selected fields to screen

Add, copy, change, or delete records

"Find" a record by key field, or "locate" by record number

Set function keys to insert a frequently used word, phrase, zip code, etc.

No programming or code necessary. On-screen prompts lead to full operation in one to two hours.

THE FILING ASSISTANT contains a built-in mail label program that allows you to print a 1 to 6 line label. You can include more than one field per line and print up to four labels across the page. Labels to be printed can be selected on one or more fields.

The program also allows you to design your own report formats. Your reports may include:

Automatic record counting

Computation between fields

Totals and/or sub-totals per column

Record selection by one or more fields

TECHNICAL NOTE

This program supports the serial or the user port —you can configure just about any printer. It can be used with more than one 1541 disk drive or with the "C-64 Link-IEEE Interface" which allows you to work with the Commodore 2031, 4040, and 8050 disk drives.

THE FILING ASSISTANT is part of a series. It will integrate with **THE WRITER'S ASSISTANT** (word processing) and **THE SPREADSHEET ASSISTANT** (forecasting and financial analysis).

Even if you are a beginner **THE FILING ASSISTANT** will allow you to manage personal and business records. The **ASSISTANT SERIES** provides you with the most complete and practical information management package available for the Commodore 64.
